The PI group “Languages in Contact” presents in the CLS Colloquium Series:

Concepts of space. Fieldwork in the Amazon
by Pieter Muysken, Helder Perri Fereira, Marine Vuillermet

In this presentation we will present and compare various types of fieldwork techniques that have been employed by us to study concepts of space in Amazonian languages, including direct elicitation and analysis of traditional texts, picture descriptions, analyses of videos. Marine Vuillermet is working on Ese'eja (Bolivia), Helder Perri Fereira on Yanomama (Brazil), and Pieter Muysken on Lowland Quechua (Ecuador).

Thursday, May 21st 2015, 16:00h (sharp)
E 2.50 (Erasmus Building)
