REQUIREMENTS FOR YOUR PRESENTATION

When preparing for your presentation, please consider the following requirements:

1. Clearly identify the global issue that your team is addressing. We encourage student teams to consider the Global Goals* as part of their presentation.
2. Reflect upon the role that your own country or Western countries may have in the existence and/or perpetuation of the global issue.
3. Reflect upon the role that you, as individuals and local communities, in the existence and/or perpetuation of the global issue.
4. Present an idea to help address the global issue, using logical and convincing arguments, and including the way local and global communities can collaborate to develop joint solutions.
5. Solutions should include realistic plans for implementation, with some consideration for budget, logistics and possible partners.
6. Provide as many statistics and supporting research as possible to both the World’s Challenge and your solution.
7. Polish your presentation to make it organized, visual and engaging.
8. Ensure that your presentation meets any technical guidelines of your internal competition. Technical requirements for the International Finals will be provided to all finalists.

* On September 25, 2015 at the UN, 193 world leaders adopted the Global Goals, a series of 17 ambitious goals to end poverty, fight inequality and injustice and tackle climate change for everyone by 2030.
