Additional information

- A request for approval of the Research Master programme has to be submitted to the Examination Board.
- Changes in the programme first have to be approved by the student advisor and then must be resubmitted for approval to the Examination Board.
- If you wish to change components of your programme, you can use this form. Fill in your name and student number, check the appropriate box, list the numbers of the items to be changed and fill in the new component.
- A completed and signed form can be sent to/handed in at the Student Information Point, E15.24. Please address the form to the Secretary of the Examination Board.

Admission to the Research Master Philosophy

Dr. F. van Caspel, coordinator of the Research Master, works with the student advisors to provide general information regarding the programme and has an advisory role in composing individual programmes and in the admission process of the Research Master. For more information on the programme, the individual components, the OER, etc., please visit to http://www.ru.nl/opleidingen/master/philosophy-research/

Approval for the individual programme and admittance to the Research Master

- Students wishing to enrol in the Research Master programme should contact the programme's coordinator and the professor under whose supervision they wish to complete the programme.
- In consultation with the student advisor the student composes a provisional individual Research Master's programme.
- The student submits this programme as well as a motivational letter to the Admission's Committee (secr. Dr. F. van Caspel).
- The Admission's Committee advises the Examination Board on admitting the student to the Research Master.
- The Examination Board decides whether to admit the student to the Research Master based on the requirements and the Admission's Committee's advice and approves the individual programme submitted by the student (if it meets all requirements).
- If the student has not yet completed a Bachelor's degree, the student will not be admitted to the Research Master. However, in some cases the student may be granted permission to follow courses related to the Research Master.
- Admission to and registration for Master programmes is only possible after the student has completed his/her Bachelor's degree.
