Section 4 Examinations

More detailed provisions regarding the assessment of the units of study are outlined in the Rules and Regulations of the Examination Board (<https://www.ru.nl/socialsciences/stip/faculty-study-information/arrangements/education-examination-regulations/>).

Article 4.1 Structure and requirements of the interim examinations

1. Each unit of study of the programme will be completed by an interim examination. Interim examinations may comprise more than one modular interim examination and can be taken either in writing, online or orally. Apart from written or oral examinations, tests with multiple choice and/or open questions, papers, theses, assignments, take-home examinations, reports, presentations or a combination of any of these is possible.

2. In addition to the provisions set forth in paragraph 1 for units of study that also comprise a practical and/or work group, attendance levels and the degree of active participation may be included in final grading.
3. In principle, oral interim examinations are administered in public and these examinations consist of an individual test in which, normally no more than one person is tested at the same time.
4. Oral interim examinations are administered in the presence of at least a second examiner or an observer appointed by the Examination Board. Otherwise the interim examination is to be recorded. In the case that a presentation is part of the final examination, the same rules apply. The same applies to presentations that count for more than 40% of the final grade. This provision does not refer to practical assignments.
5. At the request of the student the Examination Board may, on behalf of the dean, decide that students with an impairment, by way of special examination facilities, sit the interim examinations in a form adapted to that impairment. Prior to making a decision on this matter, the Examination Board may seek expert advice. In so far as facilities in the context of a 'digital test' are concerned, the Examination Board, when formatting the facility, may seek advice from the faculty's digital testing coordinator.
6. In the prospectus information will be provided for each individual unit of study on the way in which the interim examinations will be administered.
7. Representative sample questions, both in number, form and content will be made available to the students at least one week prior to the examination. For interim examinations with open questions at least one sample question and model answer are made available; for multiple choice examinations at least three questions and answers.
8. The course manual must be published at least one week before the start of the unit of study on the online learning environment. The course manual includes materials for the interim examination preparation, compulsory literature, examination methods and weighting of various interim examination parts in the determination of the final grade. For all students assessment criteria have to be available for final assignments, theses, assignments, reports and presentations.
9. Interim examination dates must be announced no later than one month before the start of a semester.
10. If a unit of study starts on the first day of an academic period set by the Executive Board, no requirements may be imposed on students regarding literature having been studied or assignments having been completed for that unit of study on that day. Necessary preparatory actions - such as reading course manuals or looking for an internship - are permitted.
11. If there are legitimate grounds, the Examination Board may decide that an interim examination is taken in another form than described in the prospectus.

Article 4.2 Rules when administering interim examinations

For the proper course of events during examinations that are administered in the examination rooms of the Radboud University, the dean has adopted the Regulation House rules Examinations in a separate decision. In order to provide the student with proper and clear information these rules have been attached to these regulations as Appendix 3.

Article 4.3 *Frequency of interim examinations*

1. For each unit of study opportunity is given for one interim examination and one resit each academic year, on the dates set by the programme director unless provided otherwise in the programme-specific part of these regulations.
2. If the examination referred to in paragraph 1 consists of module tests, the resit also consists of module tests, unless stated otherwise in the programme specific part.
3. Contrary to the stipulation in paragraph 1, there will be only one opportunity to take an interim examination for a unit of study that was not taught in that particular academic year. The Examination Board may decide otherwise.

Article 4.4 *Language of the interim examinations*

The interim examinations are offered in the programme's language of instruction, unless provided otherwise in the programme specific part of these regulations.

Article 4.5 *Registration and application for interim examinations*

1. Students register through OSIRIS for a unit of study of the programme.
2. If student is registered for a unit of study he or she is also registered for the first interim examination in the corresponding academic year.
3. Registering for an interim examination is possible until 11.59 pm on the day before a period of five working days preceding the date of the interim examination, meaning there must always be five full working days between the registration deadline for a particular interim examination and the date of that interim examination. The day on which the interim examination takes place is never included in this period of five working days. After this date registration no longer is possible, unless the Examination Board in special cases decides otherwise.
4. If a student should not want to sit the interim examination, he or she will have to deregister through OSIRIS, no later than five full working days before the interim examination date.

Article 4.6 *Re-sit of interim examinations*

1. Interim examinations may be retaken once within the same academic year, even when the result is a pass.
2. If a student wants to re-sit an interim examination he/she has to register.
3. Registering for a re-sit is possible until 11.59 pm on the day before a period of five working days preceding the date of the re-sit, meaning there must always be five full working days between the registration deadline for a particular re-sit and the date of that re-sit. The day on which the resit takes place is never included in this period of five working days. After this date registration no longer is possible, unless the Examination Board in special cases decides otherwise.
4. If feedback has been provided within a reasonable time period, successfully passed interim examinations (essays, assignments, report etc.) cannot be retaken, unless stated otherwise in the course manual. A final paper for a programme that receives a passing grade may only be redone in the sense that an entirely new paper is written.

5. If a student re-sits an interim examination, in all cases the most recent grade will determine the final result.
6. The course manual contains provisions on retaking modular interim examinations.
7. If a student does not pass the interim examination within the academic year he or she must retake the entire unit of study the following academic year, unless the examiner decides otherwise.

Article 4.7 Determination of results

For arithmetical scores between 5 and 6, a score lower than 5.50 will be rounded to 5 and a score equal to or higher than 5.50 will be rounded to 6. The degree programme's course manual contains provisions on rounding scores of modular interim examinations for the different units of study.
3. If the result of an interim examination equals or is greater than 6.0 points, the interim examination is passed. If the result of the interim examination equals or is less than 5.0 points, the student has failed the interim examination.

3. By way of exception the Examination Board may - in consultation with the examiner - extend the period referred to in paragraph 2 or reduce this period. Students must be informed before the expiry of the deadline.
4. The grading period is mentioned on the examination form or the digital learning environment.
5. A minimum period of ten working days must be maintained between the date of the announcement of the result and the date of the re-sit, except for units of study in the fourth period with both the interim examination and the re-sit in the same period, where this minimum period is five working days.
6. When the results are published, the student will be informed about the right to inspect his or her marked work as referred to in article 4.8 and about the possibility of appealing at the Examinations Appeals Board

7. In all events, inspection will take place no later than five working days before the re-sit of the interim examination in question is administered.
8. The provision in paragraph 7 does not apply to units of study in the fourth period with both the interim examination and the re-sit in the same period, where this minimum period is two working days.
9. The provisions in paragraph 1 up to 7 do not apply to modular examinations, unless provided otherwise in the course manual.

Article 4.11 Validity term of examinations

1. The validity term of any examination that has been passed is indefinite, unless provided otherwise

in the programme specific part of these regulations, with due observance of the stipulations on this matter laid down in the Act.

2. In case of a restricted validity term, the Examination Board, in special circumstances and in individual cases, may extend the validity term. In the event a student has been granted financial support under the Profiling Fund, as referred to in the Act, because of an impairment or chronic illness, the Examination Board extends the period, at any time, at least by the number of months that the financial support has been granted by the Executive Board.
3. The student is notified, in due time, of the expiry of the validity term applicable for an examination that was passed. This notification, by or on behalf of the dean, states that the relevant knowledge, understanding and/or skills are outdated and explains the reasons why.
4. The provisions in paragraph 1 of the present article do not apply for modular examinations. The validity term of modular examinations is always limited to the end of the relevant unit of study.

Article 4.12 Determination of final Master's examination results

1. When students have completed all interim examinations successfully, they must apply for the final Master's examination themselves.
2. The Examination Board will determine the results of the examination as soon as the student has passed the interim examinations forming part of either the units of study of the programme in question or of the phase of the programme in question and has submitted proof thereof. The examination date is the date of the last interim examination successfully completed.
3. Prior to determining the results of the final Master's examination, the Examination Board itself may conduct an inquiry into the student's knowledge with respect to one or more units of study or aspects of the degree programme. If this is the case, this will be elaborated upon in the programme-specific part of these regulations.

APPENDIX 4 FACULTY OF SOCIAL SCIENCES CODE OF CONDUCT

The Faculty of Social Sciences seeks to offer a work environment where employees and students work and study with effort, joyfully, and aimed towards results. To facilitate this, the faculty has adopted a number of rules governing conduct within the faculty. These rules of conduct are taken to form the foundation of a motivating and inspiring work environment. It is the mutual responsibility of employees and students to follow them.

The faculty seeks to provide an atmosphere characterised by:

- mutual respect and personal development;
- openness and trust;
- cooperation and responsibility.

This implies that

- everyone should be treated with respect, without being offensive or hurtful;
- you should treat others as you wish to be treated. This goes for all forms of all contact on campus that occurs between staff and students and for all forms of communication, including verbal, written, e-mail, Blackboard, chat rooms, and course evaluations;
- everyone makes sure to familiarise themselves with and act according to the rules in the various regulations (e.g. EER, student-act, regulation on academic integrity, the terms of use for the RU-network and SURFnet) as well as the agreements made with respect to attendance, deadlines, review periods, completing assignments, among others;
- one sticks to the rules and agreements once made;
- students and examiners are jointly responsible for the successful functioning of the educational process and they can and may appeal to their responsibility;
- one assumes good intentions of each other and one does not adhere to prejudicial judgements;
- everyone makes sure to be familiar with relevant information and recent changes in the educational organisation and content;
- everyone respects each other's property and takes good care of spaces and materials used.

Basically, this all boils down to the same thing: treat each other with respect. The faculty trusts that students and employees will act accordingly.
