Searching for accommodation in Nijmegen

Period of stay: one month – one year
When your period of stay is at least one month, but no more than a year, you can use the options below to find housing. In case you will arrive soon, and need housing urgently for the first month, you can also check the options under ‘Period of stay: less than one month’ for short-stay options.

Request help from the International Office of Radboud University
The International Office can assist in finding housing when you stay for more than a month. Please note that in case you will stay in Nijmegen for less than three months, it will be difficult for the International Office to help, as most available accommodation is for at least three months.

If you are interested in help from the International Office, please send an email to housing@io.ru.nl. You will receive a reply that you need to forward to your supervisor or the secretariat of your department. They are requested to provide the Housing Team with some additional information. After the Housing Team has received the additional information from your supervisor/department, you will receive an email with the request to fill out an online form. Once you have filled out this form and submitted it, the Housing Team will do its best to help you find accommodation. Most of the accommodation that can be offered is furnished.

Please note the International Office cannot guarantee it can help. As it mediates between international guests, PhD-candidates and employees and house owners on the private market, it is entirely dependent on the availability on the market.
