

Become a mentor for international students!

www.ru.nl/ris-mentor - Radboud International Students facebook

change perspective

Radboud University

Broaden your international network: become a mentor!

The International Office and Radboud International Students (RIS) are dedicated to giving the international students the best welcome ever at Radboud University during the Orientation!

But of course the Orientation team can't do it alone!

What will you do?

You will accompany international students during and after the Orientation and help them find their way at university and in Nijmegen.

Who will be in your mentor group?

20 to 25 international exchange or (Pre) Master's students from all faculties from all over the world and 3 co-mentors.

SO?

- Do you want to help students find their way during the Orientation and the rest of their stay?
- Would you like to make a lot of new international friends in just one week?
- Want to improve your language skills?

Then register!

You can join individually or you can give us your preferences for co-mentors. For each group we would like to have 2 Dutch mentors and 2 international mentors.

Fill out the form on
