

DATASERVICE RU - FSW - RTOG

Pieter van Groenestijn
5 augustus 2013

VOORWOORD

Secundaire data-analyse is een belangrijke vorm van sociaal-wetenschappelijk onderzoek en daarom is het belangrijk dat de gegevens die in de loop van de tijd in onderzoeken zijn verzameld, beschikbaar blijven. Bij de Research Technische Ondersteunings-Groep (RTOG) zijn data-bestanden en bijbehorende documentatie beschikbaar op terreinen van o.a. sociologie, politicologie, communicatiewetenschap, onderwijskunde, pedagogische wetenschappen en vredesvraagstukken.

In deze (onvolledige) lijst zijn de databestanden geordend naar land (soms ook naar onderwerp) en daarbinnen op jaar waarin de gegevens verzameld zijn. Elk afzonderlijk onderzoek is voorzien van een interne code bestaande uit een letteraanduiding en een volgnummer (bijv. NET013 voor het dertiende onderzoek van Nederland). Behalve het jaar van dataverzameling, de titel van het onderzoek alsmede het aantal respondenten en variabelen, staat in de lijst de toegangscode vermeld. Dit is een algemene indicatie van de toegankelijkheid van het bestand zoals die gehanteerd wordt door de leveranciers van de databestanden. Hoe lager de code, des te vrijer kan het bestand gebruikt worden:

- (1) Geen beperkingen voor wetenschappelijk onderzoek.
- (2) Publicaties e.d. dienen ter kennis te worden gebracht aan schenker.
- (3) Schriftelijke toestemming nodig van de schenker vóór publicatie.
- (4) Schriftelijke toestemming nodig van de schenker vóór gebruik data.
- (5) Extra condities (vaak financieel van aard).

In de lijst zijn ook databestanden opgenomen die via internet zijn te downloaden, deze zijn voorzien van toegangscode (0). Bijna altijd is hiervoor wel eerst registratie vereist. Documentatie behorend bij deze bestanden is voor inzage beschikbaar.

Speciale Relatie met DANS

De activiteiten van het Nederlands Instituut voor Wetenschappelijke Informatie (NIWI) en het Wetenschappelijk Statistisch Agentschap (WSA) zijn per 1 juli 2005 overgenomen door Data Archiving and Network Services (DANS). DANS stelt steeds meer databestanden gratis ter beschikking. Neem eens een kijkje op <http://www.dans.knaw.nl/nl/>. Door middel van de faciliteit DANS EASY kunnen data worden opgevraagd en gedeponerd. Zie hiervoor: <https://easy.dans.knaw.nl/ui/home>

Beperking uitlevering bestanden

In aanvulling op de toegangscode 0-5 gelden nog de volgende beperkingen voor uitlevering. Allereerst worden er slechts bestanden aan mensen van de eigen universiteit (RU) uitgeleverd. Mensen van buiten worden geacht DANS te benaderen of andere data-archieven, die op nationaal of hoger niveau opereren. De hier beschreven dataservice is een lokaal distributiepunt voor de RU.

Bestanden die afkomstig zijn van WSA kunnen slechts uitgeleverd worden aan onderzoekers van de Faculteit Sociale Wetenschappen van de RU die een gebruikersovereenkomst hebben getekend. Levering van de bestanden die voorzien zijn van de aanduiding *wsa-its* zijn alleen op te vragen door onderzoekers uit het onderzoeksthema "sociale en culturele ontwikkelingen in Nederland".

Advies

Voor het gebruik van de data adviseren wij om op de site van de toeleverancier te kijken. Daar is vaak aanvullende informatie te vinden over het gebruik van het datamateriaal. Deze toeleveranciers hebben een eigen data-archief. Daarom worden ook nog andere codenummers vermeld; de voorloopletter geeft het archief (internetadres) aan:
