

How to send files through SURF

This procedure can be followed to transfer data (e.g. between Huygens building and RIMLS) through SURF, a safe server service for Dutch education and research (Free)

- Browse to www.surffilesender.nl/en

- Choose the entries for the Radboud University or the RadboudUMC

A search interface with a search bar containing the text "radboud". Below the search bar, there is a section titled "Previously chosen:" with an "Edit List" link. Underneath, a blue bar displays "Radboud University" with a "Press enter to select" button. Below that, a section titled "Identity Providers with access" shows "Radboudumc".

Radboud Universiteit
