Evaluation of the final grade

For the evaluation of the thesis and to determine the final grade, the following points of attention are used. Points 1-7 evaluate the content of the thesis and academic level of the student whereas points 8-11 evaluate the form in which the student presents the work. Depending on the discussion between supervisor and student not all components may be applicable, i.e. N.A. The following table includes guidelines of weights for individual components that can be used to determine the final mark.

	Criterion	Weight
1	Significance and originality	++++
2	Abstract	+++
3	Introduction	++++
4	Justification of the hypothesis/aim	++++
5	Justification of literature research	++
6	Critical evaluation of literature	++++
7	Synthesis and conclusion	++++
8	Correct citations and reference list	++
9	Writing skills	+++
10	Quality of self-made figures/diagrams	++
