"CIE was an amazing experience! I had the opportunity to meet fantastic people and professors. When I started the course I could not speak Spanish at all, but at the end of it I could easily understand people and express the basic concepts. Money well spent"

"I cannot recommend CIE enough! The professors were outstanding and the field trips gave me opportunities I would never have had on my own. Making connections with other exchange students and USAL staff also gave me a support system to lean on once the semester started"

"A fantastic way to begin my adventure in Buenos Aires. If you're looking for a course that provides more than just grammar lessons in the classroom, I recommend the CIE program. I had the chance to connect with the Argentinian capital, culture and many other international students"
