

Curtin University

A GLOBAL UNIVERSITY

Curtin University is a global university, with campuses in Australia, Malaysia, Singapore, Dubai and Mauritius, as well as partnerships with more than 130 institutions worldwide. Curtin's growing international reputation has seen it rise up the university rankings in recent years. The university is now ranked in the top one percent of universities worldwide in the prestigious Academic Ranking of World Universities 2018.

Curtin is always looking to expand its global presence through strategic international partnerships, alliances and integrated campuses.

Curtin welcomes more than 51,000 students to its campuses, around a quarter of whom are from a country other than Australia. Some courses allow students to move between locations during their studies, providing invaluable personal and academic opportunities.

OUR LOCATIONS

Malaysia

Curtin Malaysia, situated in the north-west coast of Sarawak, opened in 1999 and was the first foreign university campus to be set up on the island of Borneo; a reflection of our reputation for excellence in South-East Asia. Perth

Perth is a stunning, vibrant and multicultural city and the ideal place to mix study with sports, activities, dining and relaxation. Curtin's largest campus is located six kilometres south-east of central Perth in the suburb of Bentley. Since its establishment in 1967, the 116 hectare campus has undergone some significant changes, with striking new buildings now interspersed with the brutalist architecture of the early campus.

Curtin also operates from four locations in the Perth central business district: the Graduate School of Business and Curtin Law School bring education to the heart of the city, and two premises on Perth's main street, St Georges Terrace, provide a space to engage with Perth's professional sector.

Perth offers all Curtin undergraduate courses.

Kalgoorlie

Curtin Kalgoorlie immerses students in Western Australia's most historic mining town, around 600 km east of Perth. Curtin Kalgoorlie offers internationally recognised courses in mining engineering, metallurgical engineering, chemical engineering, petroleum engineering, applied geology and exploration geophysics, education, health and commerce.
