PART 1 GENERAL PROVISIONS

Section 1 General provisions

Article 1.1 Applicability

1. These Education and Examination Regulations (EER, hereinafter, regulations) apply to the Bachelor’s degree programme in Psychology (hereinafter, the programme), that is offered by the Faculty of Social Sciences (hereinafter, the faculty). Part 2 of these regulations lists the provisions applicable to all Bachelor’s degree programmes. Part 3 specifies the additional provisions applicable to this particular programme.

2. The present regulations apply to all students enrolled in the programme in 2018-2019.

3. In order to prevent disadvantages to students as a result of regulatory alterations regarding the EER that was in place at the start of the programme, suitable arrangements are made. If no arrangements have been made, students can apply for consideration of the hardship clause (article 13.1).

Article 1.2 Definitions

1. The terms used in these regulations, which are also used in the Higher Education and Research Act (Wet op het hoger onderwijs en wetenschappelijk onderzoek, hereinafter, ‘the Act’) will have the same meaning as these terms have in the Act.

2. Apart from the terms referred to in paragraph 1, the following terms will be understood to have the following meaning:
   - EC (European Credit): the course load entity in accordance with the European Credit Transfer System, in which 1 EC is equivalent to 28 hours of study.
   - Examination programme: the entirety of units of study, resulting in a Bachelor’s or Master’s degree certificate.
   - Interim examination: umbrella term for all common assessment methods, as described in article 4.1.1.
   - Unit of study part of the degree programme (component) as referred to in article 7.3 of the Act.
   - Free elective unit of study: component to be determined by the student, which is part of the examination programme.
   - Extracurricular elective unit of study: component to be determined by the student, which is not part of the examination programme.
   - Fraud: any act or omission by a student that makes forming an accurate opinion of his or her knowledge, understanding and skills partially or entirely impossible. A detailed explanation of this is outlined in appendix 3.
   - Scientific integrity: regarding research and education within the faculty, regulations are in place as formulated by the ‘Notitie Wetenschappelijke integriteit’ at the KNAW (www.knaw.nl/nl/actueel/publicaties/notitie-wetenschappelijke-integriteit) and elaborated by the ‘Nederlandse Gedragscode Wetenschapsbeoefening’ by the VSNU. (www.vsnu.nl/nederlandse-gedragscode-wetenschapsbeoefening.html).
   - Final paper: final paper for the programme, also known as dissertation or thesis.
PART 2 GENERAL PART

Section 2 Admission to the programme and education

Article 2.1 (Additional) admission requirements
To be admitted to the programme, the student must meet the statutory admission requirements relating to (additional) previous qualifications.

Article 2.2 Additional requirements in case of inadequate prior education
1. The student who has a pre-university education diploma that does not meet the admission requirements referred to in article 2.1, may still enrol, with due observance of the provisions of article 7.25, paragraph 5 of the Act, on condition that comparable requirements have been met in terms of content and subject to further assessment. The assessment procedure and the requirements are outlined in the programme-specific part of these regulations.
2. With regard to the equivalence of different or foreign prior education as well as any assessment of deficiencies, the Examination Board of the preferred programme will advise the university’s Executive Board. The Executive Board makes the final decision.

Article 2.3 Entry requirements
Students who are registered for the programme may attend all units of study in that programme and may sit the relevant interim examinations, unless specific admission requirements apply as laid down in the programme-specific part of these regulations.

Section 3 Structure of the programme

Article 3.1 Final examination, degree and distinction
1. The first year of the programme is concluded by the Propaedeutic examination. The programme is concluded by the Bachelor’s final examination.
2. The student who has passed the final examination of the Bachelor’s degree programme will be awarded the Bachelor of Science (BSc) degree.
3. The Examination Board may award a distinction to a student who has successfully passed the Propaedeutic or Bachelor’s final examination. The rules for awarding a distinction have been laid down in the university’s Guideline for Distinctions 2015. In order to provide the student with proper and clear information this guideline is attached to these regulations as appendix 1.

Article 3.2 General learning outcomes
1. The degree programme has the intention that students:
   a. acquire knowledge, understanding and skills in the relevant area;
   b. are educated on an academic level; and
   c. are prepared for an advanced study career or future (study) career.
2. In addition to the general exit qualifications as described in paragraph 1 of the present article the programme also intends to realize the programme-specific learning outcomes as laid down in article 10.1 of the programme-specific part of these regulations.

**Article 3.3  Curriculum**
1. The programme comprises the total of the units of study as described in the programme-specific part of these regulations and is aimed at the realisation of well-defined objectives in the areas of the knowledge, understanding and skills that those completing the course are deemed to possess.
2. The programme allows the student to opt for elective units of study amounting to at least 6 and a maximum of 30 EC. These free electives can be taken abroad.
3. In addition to the units of study referred to in paragraph 2, the student may add extra-curricular elective units of study to the programme.
4. In the context of the programme the student is required to write a final paper as an individual proof of competence, unless the Examination Board should decide this requirement is to be replaced by participation in a research project or by an internship that is subject to an individual report in accordance with applicable academic standards.
5. The programme allows for units of study of a philosophical nature, in total amounting to at least 6 EC.
6. Notwithstanding the stipulations above, the programme-specific part may detail deviations of this article.

**Article 3.4  Elective programme**
1. The programme’s Examination Board decides on a request for permission to attend an elective programme as intended in article 7.3d of the Act. The Examination Board will verify whether the programme fits within the degree programme’s domain which the Examination Board is accountable to, if it is sufficiently coherent and if the level is adequate in the context of the programme’s learning outcomes.
2. The request in question will have to be submitted at least two months prior to the start of the programme.

**Article 3.5  Teaching periods and interim examinations**
1. The programme will be offered in an annual schedule consisting of two semesters.
2. A semester is divided in two periods. Each period consists of seven education weeks, one week without education and two examination weeks.
3. The programme-specific part at least arranges in which semester the opportunity is provided to attend courses and to sit the interim examinations of the units of study.

**Article 3.6  Form of education**
1. In article 10.5 and article 10.6 of the programme-specific part of these regulations the form of education for each unit of study is established.
2. In article 10.4 of the programme-specific part of these regulations the language/languages in which the units of study are taught.
3. The average number of contact hours, in accordance with the definition of de Radboud University in the propaedeutic phase and the second year is at least 15 hours per week. In principle, during the first semester of the B3 year, the average number of contact hours per week is set at at least 15.

**Article 3.7 Incorporation of units of study obtained outside the programme**

1. At the request of the student, the Examination Board will incorporate elective units of study from outside the programme.
2. The incorporation of units of study as meant in paragraph 1 is only allowed before the start of that unit.
3. In the event the units that express workload and study results of the units of study to be incorporated differ from those provided for in these regulations, conversion will take place. The Examination Board will decide on the conversion, with due observance of the Radboud University memo ‘Conversion of workload and study results’ (Conversie van studiebelasting en studieresultaten).

**Article 3.8 Replacing of units of study**

1. In special cases a student may, with the permission of the Examination Board, replace an obligatory unit of study of the programme with a unit of study from another programme.
2. The replacing of units of study as meant in paragraph 1 is only allowed before the start of that unit.

**Article 3.9 Exemptions**

1. Granting exemptions from units of study is permitted, unless provided otherwise in the programme-specific part of these regulations.
2. At the request of a student and having heard the examiner involved, the Examination Board may exempt the student either partially or fully from sitting an interim examination, if this student:
   a. has either completed a relevant unit of study of a university or higher professional programme that is similar both regarding content and level; or
   b. demonstrates - after successfully passing an assessment as requested by the examiner - having adequate knowledge and skills regarding the unit of study in question as a result of relevant work experience or professional experience.
3. Exemptions must be requested before the start of the unit of study.
4. The percentage of exemptions as referred to in paragraph 1 will never be more than 50% of the programme credits.
5. If a student is admitted to the programme based on a propaedeutic examination of another university this does not count as an exemption.
6. No exemption as referred to in paragraph 1 will be granted for the final paper.
7. In so far as the programme has generic exemptions, these are listed in the programme-specific part of these regulations.
8. The Examination Board does not grant exemptions on the basis of results obtained in the period in which the student was barred from sitting interim examinations as referred to in article 7.12b paragraph 2 of the Act.
Section 4 Examinations

More detailed provisions regarding the assessment of the units of study are outlined in the Rules and Regulations of the Examination Board (https://www.ru.nl/socialewetenschappen/osp/raadplegen/oer-eer-2018-2019/)

Article 4.1 Structure and requirements of the interim examinations

1. Each unit of study of the programme will be completed by an interim examination. Interim examinations may comprise more than one modular interim examination and can be taken either in writing, online or orally. Apart from written or oral examinations, tests with multiple choice and/or open questions, papers, theses, assignments, take-home examinations, reports, presentations or a combination of any of these is possible.

2. In addition to the provisions set forth in paragraph 1 for units of study that also comprise a practical and/or work group, attendance levels and the degree of active participation may be included in final grading.

3. In principle, oral interim examinations are administered in public and these examinations consist of an individual test in which, normally no more than one person is tested at the same time.

4. Oral interim examinations are administered in the presence of at least a second examiner or an observer appointed by the Examination Board. Otherwise the interim examination is to be recorded. In the case that a presentation is part of the final examination, the same rules apply. The same applies to presentations that count for more than 40% of the final grade. This provision does not refer to practical assignments.

5. The Examination Board may allow students with an impairment, by way of special examination facilities, to sit the interim examinations in a form adapted to their individual impairment. Prior to making a decision on this matter, the Examination Board may seek expert advice. In so far as facilities in the context of a ‘digital test’ are concerned, the Examination Board, when formatting the facility, may seek advice from the faculty’s digital testing coordinator.

6. Prior to the commencement of a semester, information will be provided for each individual unit of study on the way in which the interim examinations will be administered.

7. Representative sample questions, both in form and content will be made available to the students on the electronic learning environment at least one week prior to the examination.

8. The course manual must be published at least one week in advance of the interim examination on the electronic learning environment. The course manual includes materials for the interim examination preparation, examination methods and weighting of various interim examination parts in the determination of the final grade. For all students assessment criteria have to be available for final assignments, theses, assignments, reports and presentations.

9. Interim examination dates must be announced no later than one month before the start of a semester.

10. If an interim examination is spread over more than one exam sitting, at least five working days must be scheduled between the last class session covering relevant new materials for the interim
examination and the interim examination. If there is only one exam sitting, at least three working days must be scheduled between the last class session and the interim examination.

11. If a unit of study starts on the first day of an academic period set by the Executive Board, no requirements may be imposed on students regarding literature having been studied or assignments having been completed for that unit of study on that day. Necessary preparatory actions - such as reading course manuals or looking for an internship - are permitted.

12. If there are legitimate grounds, the Examination Board may decide that an interim examination is taken in another form than described in the prospectus.

**Article 4.2 Rules when administering interim examinations**

For the proper course of events during examinations that are administered in RU examination rooms, the executive board has adopted House rules. In order to provide the student with proper and clear information these rules have been attached to these regulations as appendix 4.

**Article 4.3 Frequency of interim examinations**

1. Students are allowed to participate in interim examinations twice unit of study in an academic year, on the dates set by the director, unless provided otherwise in the programme-specific part of these regulations.

2. Contrary to the stipulation in paragraph 1, there will be only one opportunity to take an interim examination for a unit of study that was not taught in that particular academic year. The examiner can decide otherwise.

**Article 4.4 Registration and application for interim examinations**

1. Students who register through OSIRIS for a unit of study of the programme are also registered for the first following interim examination in the relevant academic year.

2. If a student should not want to sit the interim examination, he or she will have to deregister through OSIRIS, no later than five working days before the interim examination date.

**Article 4.5 Re-sit of interim examinations**

1. Interim examinations may be retaken once within the same academic year, even when the result is a pass.

2. Students will have to register for a re-sit no later than five working days before the interim examination date in conformity with the provisions laid down to that purpose by or on behalf of the Examination Board.

3. If feedback has been provided within a reasonable time period, successfully passed interim examinations (essays, assignments, report etc.) cannot be retaken, unless stated otherwise in the course manual. A final paper for a programme that receives a passing grade may only be redone in the sense that an entirely new paper is written.

4. If a student re-sits an interim examination, in all cases the most recent grade will determine the final result.
5. The course manual contains provisions on retaking modular interim examinations for the different units of study of the programme.
6. Each interim examination must be passed within the academic year that students take the relevant unit of study. If students do not pass the interim examination within the academic year they must retake the entire unit of study the following academic year, unless the examiner decides otherwise.

**Article 4.6 Determination of results**

1. The final grade of an examination will be rounded to the nearest whole and half grade points, as follows: 1; 1.5; 2; 2.5; 3; 3.5; 4; 4.5; 5; 6; 6.5; 7; 7.5; 8; 8.5; 9; 9.5; 10, unless the grade is not expressed as a number.
2. As determined in paragraph 1, the results of an interim examination cannot be set at 5.5. For arithmetical scores between 5 and 6, a score lower than 5.50 will be rounded to 5 and a score equal to or higher than 5.50 will be rounded to 6. The degree programme’s course manual contains provisions on rounding scores of modular interim examinations for the different units of study.
3. If the result of an interim examination equals or is greater than 6.0 points, the interim examination is passed. If the result of the interim examination equals or is less than 5.0 points, the student has failed the interim examination.

**Article 4.7 Publication of results**

1. The examiner will determine the results of a written interim examination as soon as possible and takes care of registration in OSIRIS.
2. a. In case of an oral interim examination, the examiner will determine the result immediately or within five days after the interim examination was administered.
   b. In case of written or online interim examinations, the grading period is no longer than fifteen working days after the day the interim examination was administered. The last regulation also applies to written examinations divided into parts. For open-ended questions examinations with more than 100 participants, a grading period of twenty working days applies.
   c. With respect to written assignments/papers, the rule of assessment within fifteen working days applies. If there are more than 100 papers to be marked, a period of twenty working days applies.
3. By way of exception the Examination Board may, in consultation with the examiner, extend the period referred to in paragraph 2 or reduce this period. Students must be informed before the expiry of the deadline.
4. The grading period is mentioned on the examination form or the digital learning environment.
5. A minimum period of ten working days must be maintained between the date of the announcement of the result and the date of the re-sit.
6. When the results are published, the student will be informed about the right to inspect his or her marked work as referred to in article 4.8 and about the possibility of appealing at the Examinations Appeals Board as well as of the option of reassessment within the period for appeal. A request for re-assessment must be lodged with the Examination Board and shall not defer the submission term for lodging an appeal.
7. During completion of the programme’s final project an independent second reader will be consulted as well as a thesis supervisor.
8. In the case of suspected fraud or plagiarism, the provisions contained in the Regulations on Fraud during interim examinations and examinations must be followed (appendix 3).

**Article 4.8 The right to inspect the interim examinations**

1. For a period of a maximum of twenty working days following the publication of the results of a written interim examination the student will be allowed to inspect the questions and the work marked, as well as receive an explanation of the formal assessment criteria.
2. The inspection will take place under supervision of at least an examiner and/or another person with substantive knowledge regarding the course.
3. If deemed necessary, the Examination Board can, after consultation with the examiner, extend or shorten the period of twenty working days as mentioned in paragraph 1 of this article.
4. The examiner may decide that inspection will take place for all students at the same time, on a date and at a time and place set prior to the start of the unit of study.
5. Time, date and - preferably - place of the inspection referred to in paragraph 4 will be announced at least five working days in advance.
6. If a student is unable to attend the inspection referred to in paragraph 4 due to demonstrable circumstances beyond his or her control a separate inspection can be arranged upon his or her request, preferably within the period of time referred to in paragraph 1.
7. In all events, inspection will take place no later than five working days before the re-sit of the interim examination in question is administered.

**Article 4.9 Validity term of examinations**

1. The validity term of any examination that has been passed is indefinite, unless provided otherwise in the programme specific part of these regulations, with due observance of the stipulations on this matter laid down in the act.
2. In case of a restricted validity term, the Examination Board, in special circumstances and in individual cases, may extend the validity term. In the event a student has been granted financial support under the Profiling Fund, as referred to in the Act, because of an impairment or chronical illness, the board of examiners extends the period, at any time, at least by the number of months that the financial support has been granted by the executive board.
3. The provisions in paragraph 1 of the present article do not apply for modular examinations. The validity term of modular examinations is always limited to the end of the relevant unit of study.

**Article 4.10 Determination of final Bachelor’s examination results**

1. When students have completed all interim examinations successfully, they must apply for the final Bachelor’s examination themselves.
2. The Examination Board will determine the results of the final examination as soon as the student has passed the interim examinations forming part of either the units of study of the programme in question or of the phase of the programme in question and has submitted proof thereof.
3. Prior to determining the results of the final Bachelor’s examination, the Examination Board itself may conduct an inquiry into the student’s knowledge with respect to one or more units of study or aspects of the degree programme. If this is the case, this will be elaborated upon in the programme-specific part of these regulations.

Section 5 Study progress, student counselling and course advice

Article 5.1 Study progress and student counselling
1. The dean is responsible for the registration of the study results in such a way that every student can obtain an updated overview of the results registered in the system OSIRIS at that moment.
2. The dean is responsible for providing adequate student counselling.

Article 5.2 BSA regulations
Further rules covering binding recommendations for a student to continue his studies or not (known as binding study advice, BSA) have been laid down in appendix 2 to these regulations.

Section 6 Teaching evaluation

Article 6.1 Teaching evaluation method
With due observance of the quality assurance system of the university, as laid down in the Handbook Quality Assurance System Degree Programmes Radboud University (Handboek Kwaliteitszorg Onderwijs Radboud Universiteit), the dean sees to it that the units of study taught in the programmes will be systematically evaluated.

Section 7 Miscellaneous stipulations

Article 7.1 Code of conduct
The faculty has instituted a Code of conduct that both students and employees are expected to follow. This Code of conduct is attached in appendix 5 of these regulations.
PART 3 PROGRAMME SPECIFIC REGULATIONS

Section 8 General provisions

Article 8.1 Applicability
The General Provisions of these regulations shall apply to the Bachelor’s degree programme unless otherwise stated in these regulations.

Section 9 Access to the degree programme and education

Article 9.1 Admission and supplementing deficiencies
1. The admission requirements for the Bachelor’s programme are attached to these regulations as appendix 7.
2. Students can enrol for the bilingual or the English-language programme, and can only take courses and examinations pertaining to their programme of choice.
3. After completing the first year in the bilingual programme, students may be admitted to the English-language core programme and vice versa, provided they meet the admission requirements.

Article 9.2 Exemption on the grounds of a HBO first-year diploma
1. Those in possession of a HBO first-year diploma shall be exempt from the requirements set out in article 7.24 of the Act, provided they demonstrate to possess the knowledge, insight and skills to successfully complete the degree programme.
2. The requirement set out in clause 1 of this article is met when they can prove to possess sufficient knowledge of mathematics and English at the VWO (pre-academic) final examination level.

Article 9.3 Colloquium Doctum
The admission assessment, referred to in article 7.29 of the Act, is in relation to the following courses at the VWO level:
   a. Dutch;
   b. Mathematics (recommendation Mathematics A, minimum criterion Mathematics C);
   c. English.

Article 9.4 Programme-specific admission requirements
With regard to the sequence of exams of units of study of the Bachelor’s programme, the following regulations apply:
1. Students must first complete their first year (B1; propaedeuse), then the second year of the Bachelor’s programme (B2) and finally the third year of the Bachelor’s programme (B3). The following additional provisions apply.
2. Participation in units of study of the B2 year is possible, provided at least 42 EC of the first year have
been completed, with exception of the exceptional cases mentioned in appendix 2, article 3 ‘personal circumstances’.

3. Participation in units of study of the B3 year is only possible, provided the first year is completed.

4. Following an elective unit of study at another degree programme is subject to the applicable admission requirements of that programme.

5. Participation in the work groups and the interim examination Statistics 2 is only possible after having completed Statistics 1.

6. Participation in Psychometrics is only possible after having completed Statistics 1. Knowledge of Statistics 2 is assumed.

7. Participation in Research Project 2 is only possible after having completed Statistics 1, Research Methods and Research Project 1. Knowledge of Statistics 2 and the core theme of the Research Project is assumed. Students must take the variant of Research Project 2 that pertains to the core theme taken in the first semester.

8. Participation in Data Analysis is only possible after having completed Statistics 1 and Statistics 2. Knowledge of Psychometrics is assumed.

9. Participation in Applied Research Methods is only possible after having completed Statistics 2. Knowledge of Psychometrics and Decision Theory is assumed.

10. Participation in Research Project 3 and the Bachelor’s thesis is only possible after having earned 120 EC worth of Bachelor’s units of study, including Statistics 2 and Research Project 2. Knowledge of Data Analysis, Psychometrics and Decision Theory and Applied Research Methods is assumed.

11. Studying abroad is permitted, if all units of study of the B1 and B2 year (120 EC) have been obtained by 31 August of the preceding year at the latest.

Section 10 Structure and design

Article 10.1 Programme specific learning outcomes
Supplementary to the general learning outcomes described in Article 3.2 of these regulations are the learning outcomes of the Bachelor’s degree programme in Psychology included in appendix 6.

Article 10.2 Programme study load
The programme has a study load of 180 EC.

Article 10.3 Programme type
The programme is only offered full time.

Article 10.4 Programme language
1. The programme is taught in a bilingual (Dutch-English) programme and in an only English programme.

2. Students in the bilingual programme have the right to express themselves in Dutch with regards to speaking and writing (language production).
3. Contrary to paragraph 1, the dean may decide to offer units of study fully or partially in the other language. The language and language requirements for each unit of study are listed in the prospectus.

**Article 10.5 Composition of the first-year (propaedeuse) programme**

1. In accordance with the provisions in Section 3 of these regulations, the first year comprises the following units of study with reference to the corresponding period and the study load in EC (total 60):
   - PSB1GE06E General Introduction in Psychology (1) ................................................................. 7
   - PSB1BC06E Brain & Cognition 1 (2).................................................................................................................. 7
   - PSB1DH06E Development & Mental Health 1 (3)......................................................................................... 7
   - PSB1BE06E Behaviour & Environment 1 (4)............................................................................................ 7
   - PSB1RS05E Research Methods (1) ............................................................................................................... 4
   - PSB1RS10E Statistics 1 (3 and 4) .................................................................................................................. 6
   - PSB1AS05E Academic Skills for Psychologists (1 and 2) ........................................................................ 6
   - PSB1PS12E Methods of Professional Conduct (2) .................................................................................... 2
   - PSB1PS13E Professional Skills for Psychologists (3 and 4) ................................................................... 5
   - PSB1RS15E Research Project 1 (3 and 4) ................................................................................................. 6
   - PSB1RS16E Test Subject Hours (whole year) ......................................................................................... 1

2. A description of the units of study listed in paragraph 1, including contact hours, a summary of the learning objectives, and teaching and assessment methods, is included in the prospectus.

3. In the first year, students participate as test subjects during 24 hours in a scientific study that will take at the faculty. The regulations and procedure are described in the prospectus.

4. Students who, out of principle, do not wish to take part as test subjects in research as described in paragraph 3, may submit a duly reasoned request to take a replacement examination with a study load of 1 EC. The content and requirements of this examination are described in the regulations and procedure mentioned in paragraph 3.

5. Exemption for the first year (propaedeuse) is granted to students who have completed a propaedeuse in Psychology (or an equivalent of 60 EC of Psychology courses) at a different Dutch university.

**Article 10.6 Composition of the second and third year programme**

1. In accordance with the provisions in Section 3 of these regulations, the core programme comprises the following units of study, with reference to the corresponding period and the study load in EC (total 120 EC):
   - B2 year .............................................................................................................................................. 60
     - PSB2BC10E Brain & Cognition 2: Clinical Neuropsychology (1) ............................................... 5
     - PSB2DH10E Development & Mental Health 2: Psychopathology from a lifespan perspective (1) ... 5
     - PSB2BE10E Behaviour & Environment 2: Behaviour in organisations (2) ................................. 5
     - PSB2AS15E Theoretical Psychology (3) ......................................................................................... 3
     - PSB2PS35E Conversational Skills in Psychology (2) ...................................................................... 2
     - Core Themes in Psychology I (choice from 6, see appendix 9) (2) ............................................... 6
- Core Themes in Psychology II (choice from 6, see appendix 9) (3) .................................................. 6
- PSB2AS20E Philosophy of Mind, Brain and Behaviour (4) ................................................................. 4
- PSB2RS25E Statistics 2 (3 and 4) ........................................................................................................ 6
- PSB2PS26E Psychometrics (3) ........................................................................................................... 4
- PSB2RS20E Data analysis (4) ................................................................................................................ 4
- PSB2RS30E Research Project 2 (3 and 4) ........................................................................................... 5
- Domain elective (4) (see appendix 10) ............................................................................................... 4

B3 year .............................................................................................................................................. 60

A selection of two of the following courses: ..................................................................................... 12
- PSB3BC15E Brain & Cognition 3: Cognitive Neuropsychology/Brain & Cognition 3 (1) .......... (6)
- PSB3DH15E Psychology and Health 3 (1) ......................................................................................... (6)
- PSB3BE15E Behaviour & Environment 3: Cognition, Attitude and Motivation (1) ......................... (6)
- PSB3AS30E Psychological Ethics (2) ................................................................................................ 4

Domain of specialisation (choice of Brain & Cognition, Behaviour & Environment, and Development & Mental Health):
- Four domain electives of 4 EC (see appendix 10) (1 - 4) .................................................................. 16
- PSB3RS35E; PSB3RS40E; PSB3RS45E Applied research methods related to the domain of specialisation (2) ......................................................................................................................... 4
- PSB3RS50E; BPS3RS55E; PPS3RS60E Research Project 3 (3 and 4) ................................................. 6
- PSB3RS65E; PSB3RS70E; PSB3RS75E Bachelor’s thesis ........................................................................ 6
- Free electives (whole year) .............................................................................................................. 12

2. A description of the units of study described in paragraph 1, including contact hours, a summary of the learning objectives and teaching methods, has been included in the programme prospectus.
3. If the student wishes to do Research Project 3 in another domain than the one selected, he/she must request permission to do so from the Examination Board.
4. In the choice of the third year domain courses (Brain & Cognition 3, Behaviour & Environment 3, and Development & Mental Health 3), the student must always select the domain unit of study of the specialisation domain.

Article 10.7 Programme specific regulations regarding room for electives
1. The Bachelor’s degree programme offers room for 16 EC for electives.
2. The Examination Board must approve the incorporation of the electives described in paragraph 1 and may develop a standard rule for this.
3. All units of study from other degree programmes at Radboud University or other universities in the Netherlands may be included as electives, as well as electives from the B3 programme in Psychology that have not yet been taken.
4. Electives may also be taken abroad.
5. In terms of unit of study objectives, content, and literature, the electives may not substantially overlap with the units of study the student has already taken.
**Article 10.8 Participation in education**

1. In principle, the following applies to participation in education:
   a. participation in practicals is compulsory;
   b. participation in lectures and question-and-answer sessions is optional;
   c. participation in work groups is optional.

2. Meeting the participation requirement and any sanctions resulting from failure to meet this requirement must be outlined in the course manual of the unit of study in question.

3. If the conditions described in paragraph 2 have not been met, mandatory participation cannot be enforced.

**Section 11 Interim examinations**

**Article 11.1 Participation in interim examinations**

If a student does not pass an interim examination during the unit of study in the academic year, he/she can take the examination again the following academic year. In this case, the examination will cover the unit of study content of that year or the content of a unit of study designated by the degree programme to replace it.

**Article 11.2 Exemptions**

1. A request for exemption, as described in article 3.9, may be requested before the start of a unit of study.

2. The Examination Board must make a decision on this within six weeks.

3. The Examination Board may, upon an individual written request, having heard the examiner in question, grant exemption to (a part of) a theoretical unit of study, so long as proof can be provided that an equivalent unit of study in terms of content, study load and level has been taken at another academic degree programme in the Netherlands or abroad.

4. The Examination Board may, upon an individual, written request, having heard the examiner in question, grant exemption to (a part of) a practical unit of study, so long as proof can be provided that an equivalent unit of study in terms of content, study load and level has been taken at another academic or HBO degree programme in the Netherlands or abroad, and/or proof of work activities having been carried out that are equivalent to the unit of study in question in terms of content, time investment, and level.

5. The Examination Board may grant exemption for the free electives of 16 EC to students who have completed a Bachelor’s degree programme other than psychology.
PART 4 TRANSITIONAL AND FINAL PROVISIONS

Section 12 Transitional provisions

Article 12.1 Transitional provisions for the programme
For students who started their studies in 2013-2014, 2014-2015, or 2015-2016, transitional regulations apply on the basis of the provisions in articles 10.5 and 10.6. This has been included as appendix 7 in these EER.

Section 13 Final provisions

Article 13.1 Safety net scheme and hardship clause
1. In all cases not covered fully or partially by these regulations, the decision lies with the dean.
2. In all cases in which these regulations may result in unreasonable or unfairness for individual students, the Examination Board or the dean is authorised to make an exception to the provisions in the Education and Examination Regulations.

Article 13.2 Amendments
1. Notwithstanding the provisions in article 7 of the Structure Regulations of Radboud University, these regulations are drawn up or amended by the dean after receiving advice from the Programme Committees and after having obtained the approval of the faculties’ joint meeting.
2. In exceptional cases, an amendment to these regulations may be related to the current academic year, but only if this does not disproportionately damage the interest of the students.

Article 13.3 Publication
1. The dean is responsible for publishing these regulations and any amendments thereto.
2. Any interested party can consult the EER on the faculty website.

Article 13.4 Entry into force
These regulations shall come into force on September 1, 2018.
The Education and Examination Regulations applicable before this date will then expire.
As established by the dean on June 21, 2018.
APPENDIX 1  DISTINCTIONS

1. With due observance of the provisions set out in this article, the Examination Board will determine whether a distinction will be awarded and, if so, which distinction will be awarded.

2. The distinction:
   a. ‘cum laude’ will be awarded if the weighted average result of the final assessment of the units of study referred to in paragraph 3 equals or is higher than 8.0; or
   b. ‘summa cum laude’ will be awarded if the weighted average result of the final assessment of the units of study referred to in paragraph 3 equals or is higher than 9.0.

3. The distinction will be calculated on the basis of all units of study of the examination programme for which a mark has been awarded on a scale of 1 to 10, except for extra-curricular units of study.

4. The number of EC of the units of study referred to in paragraph 3 will serve as the weighting ratio for the calculation of the weighted average result, unless provided otherwise in the programme-specific part of these regulations.

5. The distinction will not be awarded if more than 10 per cent of the total study load of the examination programme (being one or more units of study) has been resat or if interim examinations have been resat more than once, notwithstanding the authority of the Examination Board to decide otherwise, stating reasons therefore.

6. The distinction will not be awarded if fraud was established in one of the examination programme’s units of study.
APPENDIX 2 STUDY ADVICE FIRST YEAR

Article 1 Study advice in the first year (BSA)

1. On behalf of the dean, the First Year Study Recommendations Committee (Commissie Studieadvies Eerste Jaar) will advise students on continuing their degree programme at the end of the first year, but no later than 31 August, that the student has been registered for the Propaedeutic phase of the full-time Bachelor’s degree programme as referred to in article 7.8b of the Act.

2. The Propaedeutic phase of the Bachelor’s degree programme is the first study year of the Bachelor’s degree programme and contains a study load of 60 EC.

3. The First Year Study Recommendations Committee will advise students positively on continuing their degree programme if a student has achieved a minimum of 42 EC in the Propaedeutic phase referred to in paragraph 2.

4. The First Year Study Recommendations Committee will advise students negatively on continuing their degree programme if a student does not meet the requirements referred to in paragraph 3, unless personal circumstances as referred to in article 3 of these regulations should play a role. A negative study advice is a recommendation not to continue the degree programme in question and is binding.

5. The First Year Study Recommendations Committee will notify students of its intention to give a binding advice not to continue their degree programme and will provide students with the opportunity to be heard before the binding advice not to continue their degree programme becomes final.

6. When determining the required number of EC referred to in paragraph 3, the EC that have been granted for exemptions will not be taken into account. When granting the exemptions, the Examination Board may provide otherwise and set alternative or additional requirements.

7. Students will be heard by the First Year Study Recommendations Committee.

8. The First Year Study Recommendations Committee will give binding advice on continuing their degree programme to students registered for a part-time programme at the end of their second study year and to students who registered for a full-time programme after 31 January. The First Year Study Recommendations Committee will then advise students positively on continuing their degree programme if the Propaedeutic phase has been successfully concluded.

9. The dean is entitled to lay down additional rules for students who have registered for two degree programmes recognized as dual degree programme under or pursuant to these Education and Examination Regulations.

10. Students who terminate their registration before 1 March will not be given any advice for that academic year. If they register again for this degree programme in the following academic year, they will be given binding advice on continuing their degree programme or not at the end of that second study year. The provisions of the last sentence of paragraph 8 will equally apply.

11. Students may appeal to the Examination Appeals Board against a binding advice not to continue their degree programme within six weeks following this recommendation. The appeal will have no suspensive effect.
Article 2 Provisional recommendations

1. In anticipation of the advice referred to in article 1 of these regulations, the First Year Study Recommendations Committee will make provisional recommendations, at the end of the first semester, before 1 March, to students on continuing their degree programmes on the basis of their results to date.

2. The provisional recommendation is especially meant as a warning for students who have failed to make adequate progress. The students in question will be invited for an interview with the student advisor to see how the study results could be improved or whether an alternative degree programme might be advisable.

Article 3 Personal circumstances

1. When deciding on the binding advice to continue a degree programme, the First Year Study Recommendations Committee will take into consideration personal circumstances as referred to in article 2.1 of the implementation decree (‘Uitvoeringsbesluit’) of the Act, in so far as a student advisor, a student dean, or any other person appointed to this end has been notified, without delay, of these circumstances by or on behalf of the student in question. The student may be requested to substantiate why personal circumstances have played a role or to argue convincingly that these circumstances should be taken into consideration.

2. Personal circumstances will exclusively be considered as such if they have been specified under or pursuant to the Act.

Article 4 Duration of advice

1. If binding advice has been given not to continue the degree programme, the student in question will neither be entitled, for a period of three years, to register for the same Bachelor’s degree programme nor for any other Bachelor’s degree programmes that have their Propaedeutic phases partially or entirely in common, as designated by the dean.

2. In the event a student should register again for the degree programme after the period referred to in paragraph 1, this registration will be considered as a first registration under this paragraph and the relevant provisions will apply in full.

Article 5 No binding negative advice or deferral of the decision

1. On the basis of the circumstances referred to in article 3, the dean, having heard the First Year Study Recommendations Committee, may decide not to attach binding consequences to their negative advice to students to continue their degree programme. Having heard the First Year Study Recommendations Committee, the dean may also decide, on the basis of the circumstances referred to, not to attach binding consequences as yet to the negative advice.

2. If binding advice not to continue the degree programme is not yet given pursuant to paragraph 1, the First Year Study Recommendations Committee will give their binding advice as referred to in article 1 before the end of the second study year if, at that time, the student has not yet obtained the 60 EC of the Propaedeutic year.
APPENDIX 3 REGULATIONS ON FRAUD

Paragraph 1 Introductory provisions

Article 1 Purpose of these regulations
1. To prevent fraud during interim examinations and examinations as referred to in article 7.12b WHW, the executive board of Radboud University (hereinafter: RU) adopts the following regulations.
2. For the harmonisation of the provisions in these regulations between faculties, these regulations have been laid down as 'comply-explain' regulations (pas-toe-leg-uit-regeling).

Article 2 Scope of these regulations
1. These regulations apply both to the initial RU programmes and for the students who have registered for these programmes.
2. The executive board may decide, in a separate decision, to apply these regulations mutatis mutandis to the other programmes offered by RU.

Article 3 Definitions
The terms that are used in these regulations - in so far as these terms are also used in the Higher Education and Research Act (Wet op het Hoger onderwijs en Wetenschappelijk onderzoek, hereinafter: WHW) - have the same meaning that is given to these terms in the WHW.

Paragraph 2 Definition fraud, procedure and sanctions

Article 4 Definition of fraud
1. At RU, fraud is understood to mean any act or omission by a student which, in its nature, is intended to have as an effect that proper assessment of the knowledge, understanding and skills of that student or another student, is made fully or partially impossible.
2. Fraud is in any case understood to mean:
   a. fraud when taking written interim examinations, including
      - having materials available which are not permitted under the House Rules Examinations Rooms RU Regulations (Regeling Huisregels Tentamenruimten RU);
      - copying or exchanging information;
      - passing oneself off as someone else, or being represented by someone else during interim examinations;
   b. fraud when producing theses and other papers, including
      - plagiarism in the sense of using or copying someone else's texts, data or ideas without complete and correct source references, plagiarism in the sense of copying the work of another student and presenting this as one's own work and other specifically academic forms of plagiarism; insofar as it leads to the description in paragraph 1.
      - fabricating (making up) and/or falsifying (distorting) research data;
- submitting a thesis or another paper that was written by someone else.

c. other fraud in the context of interim examinations or examinations, including
- taking possession of assignments, answer keys and the like, prior to the time the interim examination or examination is to take place;
- changing answers to assignments in an interim examination or examination after it has been handed in for assessment;
- providing incorrect information when applying for an exemption, extension of validity period, and the like, of an interim examination or an examination.

3. An attempt to commit fraud will also be seen as fraud for the purpose of these regulations.

Article 5 Procedure for suspicion of fraud
1. When fraud is suspected, the examination board or the examiner immediately informs the student of this suspicion. If the suspicion of fraud is established when the interim examination or the examination is administered, the examination board or the examiner will allow the student to complete the interim examination or the examination.
2. The examination board or the examiner may order the student to make any material related to the suspicion of fraud available to them.
3. The examination board or the examiner drafts a report of the suspicion of fraud. If the examiner drafts the report, he will send this report to the examination board without delay.
4. The examiner can have him- or herself be represented by an invigilator or another RU employee.

Article 6 Procedure for investigation and determination of fraud
1. The examination board makes the report referred to in article 5 available to the student without delay and then starts an investigation into the matter. The examination board provides the student with the opportunity to respond to the report in writing. The examination board hears both the examiner and the student.
2. Within four weeks following the date the report was made available to the student, the board of examiners decides whether fraud was actually committed. The examination board informs both the student and the examiner of their decision in writing. The four-week period may be extended by two weeks.
3. If fraud is established, the examination board declares the relevant interim examination or examination invalid.
4. If fraud is established, the examination records both the fact that fraud was committed and the sanction imposed in the student’s student file.

Article 7 Sanctions
1. If the examination board has established fraud has been committed, the board may:
   a. determine that the student may not sit one or more interim examinations or examinations during a period to be set by the examination board, which period will be a maximum of one year;
   b. determine that no distinction will be awarded on the degree certificate;
c. make a recommendation to the Dean of the Honours Academy that the student should not be admitted to the honours programme of the university or the faculty or recommend that the student's participation in the honours programme of the university or the faculty should be ended.

If the examination board has established that serious fraud has been committed, the board may also d. make a recommendation to the executive board that the student's registration for a programme should be terminated with definitive effect.

2. After the examination board has established that serious fraud has been committed, the executive board - upon examination boards’ recommendation - may terminate the student's registration for a programme with definitive effect.

3. The sanctions as referred to in this article are imposed as from the day following the date the student is notified of the decision that sanctions are imposed.

Paragraph 3  Transitional provisions
Does not apply.

Paragraph 4  Final provisions

Article 8  Decisions and legal protection
1. Decisions pursuant to these regulations may be sent to the student digitally and/or by email.
2. The student can appeal against any decision made under these regulations, within six weeks following the date on the relevant decision, by lodging a notice of appeal at the Examinations Appeals Board (College voor Beroep van de Examens (CBE)).

Article 9  Adoption and amendment
1. These regulations have been adopted by the executive board in accordance with the 'comply-explain' principle.
2. In so far as the content of these regulations relates to the duties and powers of the faculty's dean or the duties and powers of the programme's examination board, the content must also be confirmed by that dean or that examination board. Without any comments by the dean or the examination board as referred to in the first paragraph of the present article, confirmation will take place five months after the regulations have been adopted.

Article 10  Effect
With due observance of the provisions in Article 9, these regulations take effect on 1 September 2018. These regulations will then replace any previous regulations.

Article 11  Publication
1. The executive board sees to the appropriate publication and possible amendments of these regulations.
2. For the purpose of appropriate and clear provision of information to students and prospect students, the dean and the examination board will include these regulations, every year, as an appendix to the Education and Examination Regulations (Onderwijs- en Examenregeling, OER) and as an appendix to the Rules and Guidelines (Regels en Richtlijnen, RR) of the programme.
APPENDIX 4 REGULATIONS EXAMINATION ROOMS RU

Paragraph 1 Introductory provisions

Article 1 Purpose of the regulations
1. For the proper course of events during examinations that are taken in examination rooms at the Radboud University (hereinafter: RU), the executive board of RU adopts the following regulations.
2. For the harmonisation of the provisions in these regulations between faculties, these regulations have been laid down as 'comply-explain' regulations (pas-toe-leg-uit-regeling).

Article 2 Scope of the regulations
1. These regulations apply both to the initial RU programmes and for the students who have registered for these programmes.
2. The executive board may decide, in a separate decision, to apply these regulations mutatis mutandis to the other programmes offered by RU.

Article 3 Definitions
The terms that are used in these regulations - in so far as these terms are also used in the Higher Education and Research Act (Wet op het Hoger onderwijs en Wetenschappelijk onderzoek, hereinafter: WHW) - have the same meaning that is given to these terms in the WHW.

Article 4 Examiners and invigilators
1. For the supervision and execution of the provisions in these regulations, the relevant examination board appoints at least one examiner. On behalf of the examiner(s) appointed, one or more invigilators may be present in the examination rooms, by or on behalf of the executive board.
2. When invigilators are deployed, as referred to in the first paragraph of this article, the relevant examiner is also present in the examination room or, as appropriate, contactable.

Article 5 Guidelines and instructions
These regulations include guidelines for the purpose of article 7.1 2b WHW. The examiner must comply with the guidelines laid down in these regulations.

Article 6 Rules and instructions
1. These regulations include instructions for the purpose of Article 7.57h WHW. The examiner can also give instructions to the student. The student must comply with the rules and instructions laid down in these regulations.
2. The student who fails to comply with the rules under these regulations, or who fails to follow the instructions, may be denied access to the examination room by or on behalf of the examiner. Not complying with the rules or not following instruction may also lead to a suspicion of fraud in the sense of the Regulations on Fraud (Regeling Fraude).
Paragraph 2  House Rules

Article 7  Admission to the examination room and leaving it
1. The examination room is accessible for the student at least 15 minutes before the interim examination starts.
2. Except in the circumstances described in paragraphs 3 and 4 of the present article, the student is no longer admitted into the examination room after the interim examination has commenced.
3. The student who arrives too late at the examination room is given the opportunity, 15 minutes following the commencement of the interim examination, to be as yet admitted into the examination room.
4. During the interim examination the student is permitted to use the toilets.
5. For 30 minutes following the commencement of the interim examination and for 30 minutes before the end of the interim examination, the student is not permitted to leave the examination room.

Article 8  Student ID
1. In the examination room the student must be able to furnish proof of identity, at any time, by producing an RU student card or a valid identity card.
2. The student who cannot furnish proof of identity as laid down in the first paragraph of the present article will not be admitted into the examination room or can as yet be denied access to that room.

Article 9  Commencement interim examination
The examiner starts the interim examination in time and sees to it that the examination time available can be fully used by the student.

Article 10  Materials permitted in interim examinations
1. When taking the interim examination, the students are not allowed to have materials available that serve or could serve as auxiliary materials for the examination paper, unless the use of that material has been explicitly permitted by the examiner before the interim examination' s commencement.
2. Materials for the purpose of these regulations include, amongst other things: textbooks and dictionaries, notes and lecture notes, and watches, laptops, tablets, telephones and other smart device's and/or wearables

Article 11  Handing in examination papers
When the interim examination ends, the student must hand in the examination paper to the examiner. In relevant circumstances, the student may also be requested to hand in other examination materials, such as examination question papers and/or note paper used during the interim examination.

Article 12  Peace and order and layout of the examination room
1. Both during and after completion of the interim examination, the examiner sees to it that measures are taken that are required for adequate surveillance and for maintaining the necessary peace and
order in the examination room. Eating and drinking is allowed during the interim examination, with due observance of the provisions in these regulations.

2. When interim examinations take place, each examination room will have at least one clock which is clearly visible for each student.

**Paragraph 3  Transitional provisions**

Does not apply.

**Paragraph 4  Final provisions**

*Article 13  Departure from rules and house rules*

In special circumstances the examiner may depart from the provisions in these regulations.

*Article 14  Adoption and amendment*

1. These regulations have been adopted by the executive board in accordance with the 'comply-explain' principle.

2. In so far as the content of these regulations relates to the duties and powers of the faculty’s dean or the duties and powers of the programme’s examination board, the content must also be confirmed by that dean or that examination board. Without any comments by the dean or the examination board as referred to in the first paragraph of the present article, confirmation will take place five months after the regulations have been adopted.

*Article 15  Effect*

With due observance of the provisions in Article 14, these regulations take effect on 1 September 2018. These regulations will then replace any previous regulations.

*Article 16  Publication*

1. The executive board sees to the appropriate publication and possible amendments of these regulations.

2. For the purpose of appropriate and clear provision of information to students and prospect students, the dean and the examination board will include these regulations, every year, as an appendix to the Education and Examination Regulations (Onderwijs- en Examenregeling (OER)) and as an appendix to the Rules and Guidelines (Regels en Richtlijnen (RR)) of the programme.
APPENDIX 5      FACULTY OF SOCIAL SCIENCES CODE OF CONDUCT

The Faculty of Social Sciences seeks to offer a work environment where employees and students work and study with effort, joyfully, and aimed towards results. To facilitate this, the faculty has adopted a number of rules governing conduct within the faculty. These rules of conduct are taken to form the foundation of a motivating and inspiring work environment. It is the mutual responsibility of employees and students to follow them.

The faculty seeks to provide an atmosphere characterised by:
- mutual respect and personal development;
- openness and trust;
- cooperation and responsibility.

This implies that
- everyone should be treated with respect, without being offensive or hurtful;
- you should treat others as you wish to be treated. This goes for all forms of all contact on campus that occurs between staff and students and for all forms of communication, including verbal, written, e-mail, Blackboard, chat rooms, and course evaluations;
- everyone makes sure to familiarise themselves with and act according to the rules in the various regulations (e.g. EER, student-act, regulation on academic integrity, the terms of use for the RU-network and SURFnet) as well as the agreements made with respect to attendance, deadlines, review periods, completing assignments, among others;
- one sticks to the rules and agreements once made;
- students and examiners are jointly responsible for the successful functioning of the educational process and they can and may appeal to their responsibility;
- one assumes good intentions of each other and one does not adhere to prejudicial judgements;
- everyone makes sure to be familiar with relevant information and recent changes in the educational organisation and content;
- everyone respects each other’s property and takes good care of spaces and materials used.

Basically, this all boils down to the same thing: treat each other with respect. The faculty trusts that students and employees will act accordingly.
APPENDIX 6 LEARNING OUTCOMES

Article 1 Knowledge and understanding of the Brain & Cognition Domain
You will develop an understanding of the relationships between brain, cognition, affection and behaviour (Biological Psychology, Cognitive Psychology and Neuropsychology), and will be able to apply this to theoretical and practical problems, on the basis of the current knowledge surrounding:
1. human neuroanatomy and neurophysiology;
2. cognitive functions, such as language, learning, memory, cognitive control, perception, attention, emotion and social consciousness, and the underlying neuroanatomical foundation and neurocognitive processes;
3. neuropsychological disorders resulting from cerebral infarction, traumatic brain injury, epilepsy, dementia;
4. methods of neurocognitive research and diagnostics;
5. principles of neurocognitive intervention and prevention.

Article 2 Knowledge and understanding of the Behaviour & Environment Domain
You will develop an understanding of the relationships between brain, cognition, affection and behaviour (Biological Psychology, Cognitive Psychology and Neuropsychology), and will be able to apply this to theoretical and practical problems, on the basis of the current knowledge surrounding:
1. behaviour resulting from the interaction between individuals and their social and physical environment;
2. behaviour in working organisations, at the individual, group and organisational level;
3. evolutionary, cultural, cognitive, affective and motivational processes that underlie social behaviour;
4. influencing of and by others, such as in interpersonal relationships and intergroup relationships and in advertising and information campaigns;
5. methods of socio-psychological and work and organisational psychological research and diagnostics;
6. methods of socio-psychological and work and organisational psychological interventions and behavioural change.

Article 3 Knowledge and understanding of the Development & Mental Health Domain
You will develop an understanding of the relationships between normal functioning, abnormal functioning and life stages (Developmental Psychology and Clinical Psychology), and will be able to apply this to theoretical and practical problems, on the basis of the current knowledge surrounding:
1. stages of a person’s life (such as early childhood, adolescence, second half of life), individual differences in this regard and the psychopathology thereof;
2. development processes that distinguish or link these life stages (such as learning, aging), and how they might affect psychopathology;
3. the influence of the social environment (such as family, school, work, culture) on life and psychopathology;
4. the origin, maintenance, and manifestations of mental anomalies and disorders (such as depression, eating disorders and phobias);
5. physical and neurological processes, to the extent to which these are related to mental anomalies and disorders;
6. methods of development psychology and clinical psychology research and diagnostics;
7. principles of developmental psychology and clinical intervention and prevention.

Article 4 Research skills
You will acquire knowledge of conventional statistical and methodological research techniques in psychology and will be able to apply this knowledge largely on your own. In relation to all prevalent types of empirical psychological research, you will be able to:
1. design a study that takes into account all the prevailing theories and methods of the relevant domain;
2. carry out a study;
3. analyse and interpret research data through the use of conventional techniques (such as GLM, non-parametric tests, factor analysis);
4. report a study in accordance with APA standards for research articles.

Article 5 Academic Skills
You will acquire academic skills (analytical skills, reflection skills, communication skills, and learning skills) and will be able to apply these to theoretical and practical problems. You will be able to:
1. systematically dissect a psychological problem or issue into its elements, aspects and sub-problems;
   distinguish between primary and secondary issues, causes and consequences, facts and opinions;
   make connections, recognise patterns and come up with solutions;
2. place psychological knowledge claims in their historical context and critically evaluate them on the basis of substantive, methodological and philosophical criteria;
3. recognise and critically evaluate ethical and integrity dilemmas in psychological research, diagnostics and interventions and in professional interactions with clients, commissioning parties, participants and organisations;
4. communicate verbally and in writing on psychological issues according to APA standards, for instance through research reports, essays, recommendations, (poster) presentations, and debates;
5. identify gaps in your own knowledge and skills, handle feedback from lecturers or peers and thus guide your own academic development.

Article 6 Professional Skills
You will acquire professional skills at a basic level in the domain of your choice (conversation skills, testing skills, and reporting skills) and will be able to apply these in practical situations relevant for the work fields of psychologists, while taking the tense relationship between science and practice into account. Depending on your specialisation, you will be able to:
1. analyse the needs and problems of individuals, groups or organisations in the field of psychology with the help of diagnostic and psychodiagnostic research;
2. conduct an interview; systematically observe behaviour; administer and assess a survey; administer, assess, and psychometrically evaluate a test; professionally report your findings;
3. design and evaluate an argumented, evidence-based psychological intervention and/or critically evaluate an existing intervention;
4. develop a global personal development plan and career prospects, and indicate to what extent your qualities and ambitions are in line with the professional competences demanded by the field.
APPENDIX 7 ADMISSION REQUIREMENTS FOR THE BACHELOR’S DEGREE PROGRAMME IN PSYCHOLOGY

Prior education in the Netherlands
- Prior education: VWO - no further admission requirements.
- Prior education: HBO Bachelor - no further admission requirements.
- Prior education: HBO first year on the basis of HAVO - Mathematics and English at VWO level required; or must possess equivalent certificates for Mathematics and English, such as:
  - FSW wiskundetoets certificate;
  - IELTS Academic certificate with a minimum overall score of 6.0 as well as a minimum score of 6.0 for each of the four sub-tests;
  - TOEFL iBT certificate with a minimum total score of 80 as well minimum scores of 20 on all four parts;
  - Cambridge Certificate English: First (FCE) with a minimum grade of B;
  - Cambridge Certificate English: Advanced (CAE) with a minimum grade of C;
  - Cambridge Certificate English: Proficiency (CPE) with a minimum grade of C;
  - RAT-er certificate at the B2 level.
- Colloquium doctum: successfully completing a reading and writing assignment in Dutch or English, depending on the programme to which the candidate wishes to be admitted; and possessing certificates for Mathematics and English at the VWO level or equivalent, such as:
  - FSW wiskundetoets certificate;
  - IELTS Academic certificate with a minimum overall score of 6.0 as well as a minimum score of 6.0 for each of the four sub-tests;
  - TOEFL iBT certificate with a minimum total score of 80 as well minimum scores of 20 on all four parts;
  - Cambridge Certificate English: First (FCE) with a minimum grade of B;
  - Cambridge Certificate English: Advanced (CAE) with a minimum grade of C;
  - Cambridge Certificate English: Proficiency (CPE) with a minimum grade of C;
  - RAT-er certificate at the B2 level.

Zeugnis der Allgemeinen Hochschulreife:

English programme:
- Abitur und;
- Englisch als Prüfungsfach im Abitur (GK oder LK);
oder ein entsprechendes Sprachzertifikat:
  - IELTS Academic certificate with a minimum overall score of 6.0 as well as a minimum score of 6.0 for each of the four sub-tests;
  - TOEFL iBT certificate with a minimum total score of 80 as well minimum scores of 20 on all four parts;
  - Cambridge Certificate English: First (FCE) with a minimum grade of B;
  - Cambridge Certificate English: Advanced (CAE) with a minimum grade of C;
- Cambridge Certificate English: Proficiency (CPE) with a minimum grade of C;
- RAT-er certificate at the B2 level.

(Der Regierung der Berufsqualifizierten: Zulassungsprüfung für Berufsqualifizierte, mindestalter 21 Jahre).

**Dutch programme:**
- Abitur und;
- RU-NT2 Examen oder Staatsexamen Niederländisch als Fremdsprache (NT2) und;

(Bei Berufsqualifizierten: Zulassungsprüfung für Berufsqualifizierte, mindestalter 21 Jahre).

**United Kingdom**
- 3 GCSEs (no specific courses), minimum grade of C and 3 GCE A-levels (no specific courses), minimum grade of C and;
- Mathematics requirement: only when no GCE A-level in Mathematics will be obtained: a GCE AS-level in Mathematics, minimum grade of C and;
- English language: having obtained GCE A-levels proves proficiency in English.

**United States**
- High School Diploma including four courses at AP-level.
- Mathematics requirement: one of the four AP-level courses should be Mathematics.
- English language: having obtained a high school diploma in the United States proves proficiency in English.

**International Baccalaureate**
- Diploma programme.
- Mathematics requirement: having passed Mathematics Standard Level, Mathematics Higher Level or Further Mathematics Higher Level.
- English language: having obtained an International Baccalaureate diploma proves proficiency in English.

**European Baccalaureate**
- Diploma programme.
- Mathematics requirement: having taken three hours of maths per week.
- English language: having passed English Language 1.

**All other international pre-university qualifications**
- A diploma that is equivalent to or higher than the Dutch VWO level, according to NUFFIC and;
- Mathematics requirement: having taken three hours of mathematics per week until the penultimate year of your pre-university education and;
- English language: having passed an English language course in the last year of your pre-university education in Germany, Belgium and Austria;
- or completing your secondary education at an institution where the language of instruction is English in one of the member states of the EU/EEA, Australia, Canada, New Zealand, the United States of America;
- or being a citizen of Australia, Canada (with the exception of Quebec), Ireland, New Zealand, the United Kingdom or the United States of America;
or having obtained:
- An IELTS Academic certificate with a minimum overall score of 6.0 as well as a minimum score of 6.0 for each of the four sub-tests;
- A TOEFL iBT certificate with a minimum total score of 80 as well minimum scores of 20 on all four parts;
- Cambridge Certificate English: First (FCE) with a minimum grade of B;
- Cambridge Certificate English: Advanced (CAE) with a minimum grade of C;
- Cambridge Certificate English: Proficiency (CPE) with a minimum grade of C.
APPENDIX 8  TRANSITIONAL REGULATIONS RESULTING FROM CHANGES TO THE CURRICULUM

In 2018-2019 alternations in the bachelor’s curriculum will take place, especially in the first year and in the domain Development & Mental Health of the third year. In case these changes may result in unreasonable and unfair consequences, transitional regulations will apply. The specifics of these regulations will be announced through email and via the student portal. Students can consult the student advisor anytime, to see whether transitional regulations apply to their individual study choices and circumstances.

Bachelor’s year 1:
In order to better distribute the study load over the first and second semester, as of 2018-2019 some B1 courses will be alternated: General Introduction into Psychology will consist of one 7 EC course (new course code: SOW-PSB1GE06N/E, replacing the former SOW-PSB1GE05N/E and SOW-PSB1GE10N/E). Psychology in Action (SOW-PSB1GE15N) will expire and the learning objectives regarding the scientist practitioner will be integrated in Professional Skills for Psychologists and in the three domain introductions. Consequently, the EC’s will be: Methods of Professional Conduct 4 EC (former Professional Skills, part A); Professional Skills for Psychologists 5 EC, B&C1 7 EC, D&H1 7 EC and B&E 1 7 EC.

In order to somewhat extensify the B1 study load, Academic Skills and Research Project 1 will be redesigned: the essay assignment of Academic Skills will be moved to Research Project 1 and in Research Project 1 there will be one reserach report required instead of two. The EC’s will remain the same (6 EC).

Bachelor’s years 2 and 3:
In 2018-2019 the clinical courses in B2 and B3 will be redesigned. The practicals formerly embedded in Ontwikkeling & Psychische Gezondheid 3, Gespreksvaardigheden and Psychodiagnostiek will be integrated in one new course: Klinisch Professionele vaardigheden (PSB3DH66N, Dutch-only). New courses will be: Conversational Skills in Psychology (PSB2PS35E, 2 EC) and Clinical Assessment (PSB3DH21E, 2 EC). D&H3: Psychology & Health will be available for 6 EC or for 4 EC.

In 2019-2020 Decision Theory will be added to Clinical Assessment in the (by then 4 EC) course Clinical Assessment and Decision Making. 2018-2019 will be a transition year, because the year group 2016-2017 already took Decision Theory in their B2 year, as part of Psychometrics and Decision Theory.
APPENDIX 9  OVERVIEW OF CORE THEMES IN PSYCHOLOGY COURSES
(6 EC EACH)

Period 2: Core themes linked to Research Project 2:
- PSB2SP20E Mental Load and Stress;
- PSB2SP10E Conscious and Unconscious Processes;
- PSB2SP15E Perception, Action & Development;
- PSB2SP25E Language and Communication;
- PSB2SP05E Emotion;
- PSB2SP60E Development of Primary Relations.

Period 3: Core Themes in Psychology:
- PSB2SP50E Motivation and Performance;
- PSB2SP55E Learning and Behaviour;
- PSB2SP65E Pain: Perception and Treatment;
- PSB2SP70E Development of Pro- and Antisocial Behaviour;
- PSB2SP80E Religion & Spirituality;
- PSB2SP30E Eating Behaviour.
APPENDIX 10  OVERVIEW OF SPECIALISED UNITS OF STUDY PER DOMAIN IN THE B3 YEAR

**Brain & Cognition**
1. PSB3DH36E Conversational Skills in Psychology (period 1).
2. PSB3BC25E Neurophysiology of Cognition and Behaviour (period 2);
3. PSB3BC20E Language in Progress (period 2);
4. PSB3BC16E Psychopharmacology and Psychopathology (period 1);
5. PSB3BC30E Human Motor Control and Sport (period 2);
6. PSB3BC35E Signal Analysis and MATLAB (period 3);
7. PSB3DH45E Affective Science and Psychopathology (period 3);
8. PSB3DH66N Klinisch Professionele vaardigheden (period 3 and 4)
9. PSB3BC40E Learning, Remembering, and Forgetting (period 4);
10. PSB3BC45E Consciousness and Perception (period 4).

**Development & Mental Health**
1. PSB3DH36E Clinical assessment (period 2)
2. PSB3DH30E Fear, Anxiety and Related Disorders (period 2);
3. PSB3DH25E Prevention (period 2);
4. PSB3DH36E Conversational Skills in Psychology (period 1);
5. PSB3DH45E Affective Science and Psychopathology (period 3);
6. PSB3DH35E Gendered Psychopathologies (period 3);
7. PSB3DH40E Early Development: Chances and Risks (period 3);
8. PSB3DH66N Klinisch Professionele vaardigheden (period 3 and 4) (Dutch only);
9. PSB3DH55E Adolescence: Chances and Risks (period 4);
10. PSB3DH60E Adulthood and Aging: Chances and Risks (period 4);
11. PSB3DH50E Psychotherapy (period 4).

**Behaviour & Environment**
1. PSB3BE25E Evolutionary Foundations of human Behaviour (period 1);
2. PSB3BE20E Sport Psychology (period 1);
3. PSB3BE30E Interpersonal Relationships (period 2);
4. PSB3BE40E Work Psychology (period 3);
5. PSB3BE35E Intergroup Relations from multicultural perspectives (period 3);
6. PSB3BE50E Organisational Psychology (period 4);
7. PSB3BE45E Social Influence (period 4).

**General electives**
1. PSB3FE10E Psychology of Sexuality (period 4).
