A labyrinth for the Student Chaplaincy

• A place for reflection • to commemorate • to meet yourself •

This labyrinth was laid during the corona crisis in a beautiful process of remote cooperation. This way, we want to create a place to reflect that we can visit individually and that nevertheless connects us. With each other – all layers and all runners of the labyrinth. And with yourself – as a way of support to your own path inside.

Labyrinths occur in almost all cultures. This ancient symbol represents the path to the Middle and the path of life with all its twists. The labyrinth reminds us that there is a way. You cannot get lost in it.

Our labyrinth is a growth monument!
• You can bring your own stone to add to it.
• You can write a wish, a concern or a message on your stone.

How do you walk the labyrinth?
• Start from rest. You can walk it with an intention.
• Walk attentively, at your own pace.
• The road unfolds in progress, step by step.
• Spend a moment in the middle.
• The path leads you inside & back into the world.
• Some rules: walk alone or only with members from the same household.

If we learn to love the earth, we will find labyrinths, gardens, fountains, and precious jewels! A whole new world will open itself to us.
We will discover what it means to be truly alive.
Teresa of Ávila (1515 – 1582)

Labyrinth Student Chaplaincy Nijmegen – made jointly – to walk individually
