wish•fence

At the garden of the Student Chaplaincy

• wish • think • reflect •

This is a temporary monument that enables you to go somewhere with your wishes, hopes and dreams, your despairs or your questions, in times of social distance. A place for prayer and stillness, a colorful signal to the world. When you normally might have lit a candle inside the chaplaincy, you can now tie a ribbon to this fence.

You can bring a ribbon or check what ribbons are left in the box near the fence. Put your wish or thought on it and tie it to the fence.

We need tangible rituals. Sensing, groping creatures that we are. Looking to connect with others, with ourselves, with a divine whole.

Garden of the Student Chaplaincy HAN/RU Nijmegen – made jointly – to visit individually
