

Learn Dutch

You can probably speak English with practically anyone in the Netherlands, but learning Dutch helps you to get to know the culture and society. Understanding and speaking the local language makes everyday activities a little easier and helps you to connect to the Dutch people. When looking for an internship or job, knowing Dutch will prove very useful.

Dutch language courses are offered at different levels. There are several ways to go about learning Dutch: ask the university's language center for information on courses, find a language buddy, surf the web for free online courses, take classes at an evening school or take a summer course to learn Dutch.

Social Dutch – Radboud in'to Languages

Would you like to be able to speak Dutch to other students? Read labels in the supermarket, ask a shop assistant where you can find a particular item or have a chat with your neighbors? And would you like to know more about the Dutch culture? Try the [Social Dutch course](#) that Radboud in'to Languages offers for free to all international RU students.

Language exchange meetings

Do you want to learn a new language and are you interested in meeting people from all around the world? Go to a Language Café in Nijmegen! You can practice new languages and teach others your language. Have a look at [AvaLingua Exchange](#).
