Request for an embargo

The Doctorate regulations stipulate that your dissertation must be made available in open access via the Radboud Repository the day after the public defence. If a temporary embargo is required, then please indicate this below.

Please note: An embargo of more than 6 months is only allowed in exceptional cases and the request will be laid before the chair of the Doctorate Board. If you would like to opt for this course of action, then please select ‘other’ below and state the proposed duration of the embargo and a brief summary of your reasons.

Please state your reasons for the duration of the embargo and provide documentation to support your request.

The publication can be made publicly available:

☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5 ☐ 6 month(s) following the date of defence
☐ other, i.e.: __________________________________________________________________________

reason:
☐ The thesis is part of a larger ongoing project and the results cannot be shared (e.g. for reasons of privacy)
☐ One or more chapters of the thesis have been reworked into articles that will (in all probability) appear in a journal or on an online platform
Please note: the article has to be published in the short term
☐ A commercial version of the thesis is being prepared

☐ __________________________________________________________________________

Name of Author: ______________________________________________________________________
Email address: _______________________________________________________________________
Title of publication: ___________________________________________________________________
Place: __________________________ Date: __________________________
Signature: __________________________

Please hand in this form no later than 2 months before the date of the public defence at repository@ubn.ru.nl, together with your thesis.
