

# Checklist Your First Day at Maria Montessori

Radboud University

*Are you ready?*

- Yes, you are going to attend your first lectures in the new Maria Montessori building! What do you take with you?
  - Campus card
  - Face mask
  - Study books
  - Laptop and charger, because 'bring your own device' applies in the study and teaching areas.
- Reserve places online for self-study at least two days in advance via [this link](#). During the strict corona measures, it is only possible to reserve a workplace via Radboud FACE if you cannot work from home.
- You're here!
  - On the side of the Lecture Hall Complex (CC) you will find the entrance to the bike parking. For the bike fanatics, there are showers available too.
  - The main entrance to the Maria Montessori building is located under the bridge.
- Time for a cup of coffee or tea! You can go to various coffee machines or the beautiful cafe in the bridge.
- Hungry? There are as much as four microwaves in the bridge and two microwaves in the Common Ground (study association space) to heat up your meal.
- Thirsty? The building contains a water point in the bridge to refill your bottle.
- Curious about the study association space, the Common Ground? You can find it on the ground floor in the North Wing. The largest lecture hall is on the other side of that corridor.
- Printing and scanning can be done via the "FollowMe" printers in the building, as you are used to.
- The Student Information Point (STIP) can be found on the first floor in the North Wing. You can go there for all your study-related questions.
