1. The regulations apply for all students who are registered in the academic year 2024-2025 for the programme referred to in article 1.
2. Units of study taken as part of the programme provided by another programme are subject to the rules that apply to that programme. Units provided by the study programme are always subject to these regulations.

### Article 3 Definitions

1. The terms in these regulations that are also used in the Higher Education and Research Act (*Wet op het hoger onderwijs en wetenschappelijk onderzoek*; hereinafter to be referred to as 'the Act') have the same meaning as these terms have in the Act.

## Paragraph 6 Testing and administering examinations

### Article 29 Rules when examinations are administered

1. For the proper course of events during examinations the dean has adopted House Rules in a separate decision. For further information, these rules have been attached to these regulations as appendix V.
2. During written interim examinations it is permissible to use dictionaries that translate from the language of the student to the language of the interim examination and the reverse. English-English and Dutch-Dutch dictionaries are not permitted. The dictionaries must not contain any notes attached by persons other than the publisher.

### Article 30 Establishing examination results and their registration

1. The examiner determines the result of an examination in writing and is responsible for registering this result in Osiris.
2. The result of an examination is rounded to and expressed in full or half points. If the result of an interim examination is determined in a different way, this is specified in the course catalogue.
3. Contrary to the provisions of paragraph 2 of the present article, the result of an examination is not set at 5.5 points. An arithmetical score lower than 5.5(0) is rounded to 5 and a score equal to or higher than 5.5(0) is rounded to 6.
4. If the result of an examination equals or is more than 6.0 points, the examination is considered to have been passed. If the result of the examination equals 5.0 or is less than 5.0 points, the examination is considered not to have been passed.
5. Contrary to the provisions of paragraph 2, the examiner may, if necessary, express the result of an examination in a qualification 'requirements (not) met' (*'(niet) voldaan'*) rather than in points. If the result of an examination should be established in this way, this is specified in the course catalogue.
6. If an examination that has already been sat is resat, in all cases, the highest assessment determines the result.
7. The provisions in clauses 1, 2, 3 and 4 do not apply to partial exams.
  - a. If the result of the interim examination is determined entirely by a single mark (for example, by a written interim examination that is taken during the examination period), then clauses 2, 3 and 4 apply to the determination of this mark.
  - b. If the result of the interim examination is determined by several marks (for example, by a written examination and a paper), then clauses 2, 3 and 4 apply only to the determination of the final mark, and the student handbook describes how the marks for the partial exams are determined.

### Article 31 Non-numeric results

1. Without prejudice to the provisions of article 30, the following alphanumeric results are established and registered in Osiris in the following cases:
  - a. 'ND' – not participated (*'niet deelgenomen'*), if the student has registered for a unit of study or for an examination but has failed to participate;
  - b. 'VR' – exemption (*'vrijstelling'*), if the board of examiners has granted an exemption, with due consideration for the provisions in these regulations, for a unit of study from the examination programme.

- c. 'VD' – satisfactory ('*voldaan*') if the student has met the requirements to complete the examination.
- d. 'NVD' – not satisfied ('*niet voldaan*') if the student has not met the requirements to complete the interim examination.
- e. 'V' – pass ('*voldoende*') if the student has completed the interim examination with a satisfactory result.

## Article 32 Publication of the examination results

1. Immediately after the result of an examination has been established, the examiner provides the student administration office with the data required for the publication of this result.
2. The examiner publishes the result of a written examination within fifteen working days after the date the examination was administered. Immediately following an oral examination, but no later than fifteen working days after it was administered, the examiner informs the student about the result. With respect to an examination other than a written or oral examination, the examiner decides, prior to the relevant examination, in which way and within which period of time the student is informed of the result. In that case the term of fifteen working days may not be exceeded.
3. In exceptional cases, the Examination Board can, if requested, extend the time period referred to in clause 2 to a maximum of 20 working days or shorten it to a maximum of five working days.
4. When a result of an examination is published, the student is informed about the perusal and inspection rights as meant in these regulations. The provisions in this article do not apply to module tests.
5. When the result of an examination is published, the student is informed about the possibility to appeal at the '*College van Beroep voor de Examens*' within the applicable appeal period. However, it is desirable that the student first contacts the examiner or the examination board before lodging an official appeal.
6. If the correction period is exceeded, the following regulation ('Exceeding the correction period') will take effect:
  - a. If the period between the day on which the results are announced on Osiris and the day on which the resit takes place is less than 15 working days due to the correction period having been exceeded, another opportunity to take the resit will be provided. This second opportunity will be scheduled at least 15 and no more than 20 working days after the results have been announced.
  - b. Students can take either the regular opportunity to resit or the extra opportunity. In the latter case, they must cancel their registration for the regular resit and be allowed to register in the usual fashion for the extra opportunity.
  - c. The results of the regular resit and the extra opportunity will be announced simultaneously.
7. Contrary to the provisions in clause 2, the following time limits apply to interim examinations taken in the defined examination period of period 4. The Examiner announces the result of an interim examination in the first year of study within five working days after the day on which the interim examination was taken. Since an exam-free day falls in the examination period of period 4, the examiner announces the results of an interim examination of the remaining years of studies no later than nine instead of ten working days after the day on which the interim examination was taken.
8. Contrary to the provisions in clause 2 the Examiner announces the result of a resit of a period 3 interim examination in the first year of study within ten working days of the day on which the resit was taken.
9. The possibilities for exceeding the correction period referred to in clauses 3 through 6 above are not in force during the interim examinations and resits taken in the defined examination period in the fourth period.
10. Since an exam-free day falls in the examination period of period 4, the time period from the day on which the results of a interim examination taken in the defined examination period in the fourth period are announced to the day of the resit for these examinations is at least nine rather than ten working days.

### Article 33 Perusal and inspection rights

1. Within 26 working days after the publication of the result of an examination, the student is entitled, upon his request, to peruse and inspect the work assessed.
  - a. In special cases, the Examination Board may, if requested, extend the time limits referred to in paragraph 1 to a maximum of 31 working days or shorten them to a maximum of 21 working days.
2. For the period referred to in clause 1, any interested party is entitled to inspect, during the perusal, both the questions asked and the assignments set for the examination and the standards applied for the assessment.
3. Notwithstanding clause 1 and 2, the examiner may decide that perusal will take place for all students at the same time, on a date and at a time and place set in advance. Attendees must adhere to the instructions of the Examiner regarding registration for and the course of affairs during the post-inspection of the examination. If a student should not be able to attend this perusal because of circumstances demonstrably beyond his control, a separate perusal can be arranged, upon the student's request, preferably within the period of time referred to in paragraph 1 of the present article.
4. If a collective post-inspection of an examination is held, a student can request the Examiner to provide an individual inspection only if he or she has attended the collective inspection and explains his or her request. This request must be submitted to the Examiner no later than five working days after the collective post-inspection of the examination. In case of a dispute between the Examiner and student about whether individual inspection is warranted, this should be referred as soon as possible to the Examination Board.
5. In no event, the opportunity for perusal is offered fewer than fifteen working days prior to the first following opportunity to sit the examination.
6. Notwithstanding the provisions in clause 1 above, the post-inspections of examinations taken in the defined examination period of period 4 of the first year of study are held no more the two working days after the results of a interim examination are announced. The provision (in clause 5) concerning the minimum number of working days between the post-inspection of the examination and the first subsequent resit does not apply examinations taken in the defined exam period of period 4.
7. The Examination Board ensures the retention of (interim) examinations that are counted for the assessment for at least two years after the interim examination has taken place. Bachelor's theses and the corresponding assessment forms must be retained in the study programme administration for at least seven years.

### Article 34 Validity term of examinations

1. The validity term of an examination that has been passed is indefinite.
2. The period of validity of the result of a partial examinations ends when the result of the interim examination for the relevant unit of study (i.e. the final mark) becomes irrevocable, unless the Examiner determines otherwise. If the result of a partial examination (i.e. a partial mark) from the previous academic year remains valid, this will be stated in the course catalogue.
3. Contrary to the provisions in clause 2, the result of the partial examination for academic language proficiency in Dutch/English remains valid indefinitely.

### Article 35 Bachelor's examination and examination date

1. The programme is finalised by the bachelor's examination.
2. The Examination Board establishes the result of the bachelor's examination in writing as soon as the student has passed all the examinations corresponding to the units of study in the examination programme pertaining to the programme in question. In that case, the final examination date is the date on which the final interim

examination has been taken. If the final unit of study is the Bachelor's thesis, the submission date of the final version of the thesis counts as the examination date. If a formal defence takes place as part of the Bachelor's thesis, the date of the defence counts as the examination date.

- a. Contrary to the provisions in clause 2, the following applies: if the most recently passed interim examination (including a thesis defence) has been taken in July or August, the last day of the month in which the examination was taken will count as the examination date.
3. Students must submit the request described in clause 2 within 15 working days after the announcement of the result for the last interim examination that was passed. If students do not submit this request on time, contrary to the provisions in clause 2 the final examination date can be set on the first day of the month in which the request is submitted.
4. Students who participate in education must be enrolled in the study programme.
5. Students must be enrolled in the study programme when they request the final examination.

4. The results of the passed interim examinations will be listed on the supplement to the certificate.
5. In the Dutch-taught programme, students receive Dutch and English versions of the list of marks. In the English-taught programme, students receive an English version of the list of marks.
6. In all cases, the specialisation that the student has completed is listed on the supplement to the certificate.

## Paragraph 7 Study progress, counselling and recommendations
